

THE SHARP COMPREHENSIVE APPROACH TO SECURITY

Sharp takes a comprehensive approach to security by protecting every step in the document lifecycle, from the initial copy/scan/print/fax to final output and distribution. Fully scalable, Sharp's Security offerings enable Information Technology (IT) personnel to confidently safeguard their infrastructure and MFP installed base, without impacting network traffic or workgroup productivity.

As an industry leader in office equipment security for the last 6 years (2004-2009), Sharp has been awarded the BERTL's Best award for the Most Secure MFP throughout our product range. Sharp makes it easy for any business or government entity to safely meet their multifunction needs and meet regulatory requirements, such as the IEEE-2600™-2008, HSPD-12 Homeland Presidential Security Directive, Health Insurance Portability and Accountability Act (HIPAA) and the Gramm Leach Bliley Act (GLB).

MX-EC50 CAC Kit Compatibility

MFP Models	Data Security Kit Model
MX-M283/M363/M453/M503 N Series Only	MX-FR14U
MX-2600/3100	MX-FR10U
MX-4100/4101/5001	MX-FR11U
DX/MX-C311/C401	MX-FR13U

CAC Main Features
